Professional Summary

I am a designer, strategist, researcher, leader, mentor, and storyteller – committed to fostering innovation and delivering human-centered solutions that drive business success.

As a UX Strategist and Design Lead at SERVPRO, I apply 20+ years of experience in UX design and management to deliver innovative and user-centered SaaS products for the home services industry by bringing ideas to life and developing seamless brand integration across consumer journeys. I help evangelize UX to our internal and external partners by aligning on experience principles and applying them consistently across our projects and initiatives to help create a shared experience vision throughout the organization.
