

ROBBIE MICHAEL

UX Design Manager | Player-Coach | Enterprise Digital Products
Frisco, Texas 469-358-5544 bonseff@gmail.com bonseff.github.io

PROFESSIONAL SUMMARY

Multidisciplinary design leader with deep expertise in UX strategy, research, and creative direction. A player-coach who pairs hands-on craft with strategic oversight, building the frameworks (jobs-to-be-done, personas, journey architecture) that align cross-functional teams and executive stakeholders around a single, shared model of the customer.

CORE COMPETENCIES

UX Strategy & Leadership
Vision Definition • Experience Strategy • Business Alignment
• Cross-Functional Leadership • Stakeholder Influence

Product & Interaction Design
UX Architecture • Journey Mapping • Interaction Patterns • Scalable Design Solutions • Usability & Accessibility (WCAG)

Team Leadership & Operations
Team Development • Mentorship • Hiring & Growth • Process Optimization • Design Advocacy

Content & Experience Strategy
Information Architecture • Content Audits • SEO & Findability

User Research & Insights
Research Planning • Jobs-to-Be-Done & Persona Frameworks • Qualitative & Quantitative Methods • Synthesis

Design Systems & UI
Design Systems • Creative Direction • Scalable UI Frameworks • Brand & Experience Consistency

Data-Driven Design
Experimentation (A/B Testing) • Behavioral Analytics • Insight-Driven Iteration

WORK EXPERIENCE

UX Design Lead | SERVPRO 2024 – Present

Recruited to build SERVPRO's UX department and practice from the ground up as an individual contributor, establishing the foundational systems and standards that will scale into a full team.

- Architecting the company's design system and component library in Figma, establishing patterns, standards, and documentation that align marketing, product, and engineering on a shared design language.
- Leading information architecture, UX research, and UI design end-to-end across the consumer web experience for a national franchise network.
- Using Userlytics to write test scripts, create prototypes, and synthesize actionable research findings that drive measurable improvements in call volume and franchise revenue.
- Defining and managing a UX roadmap through sprint planning in Jira, aligning stakeholders across marketing, product, and brand leadership on priorities and outcomes.
- Championing UX principles with internal and external partners, creating a shared vision for experience standards across the organization.

Tools: Figma, Adobe CC, Userlytics, Jira, Claude, Replit

UX Design Lead | Neighborly 2021 – 2024

Led UX design strategy and team for a portfolio of 20+ home service franchise brands under one of North America's largest franchise parent companies.

- Defined a jobs-to-be-done framework and customer personas, grounded in Neighborly's actual customer segmentation, that became the shared decision-making model across 20+ brand stakeholders, from initial workshops through final shipped product.

- Facilitated cross-brand alignment workshops with brand presidents, PMOs, engineers, marketing, SEO, and CRO stakeholders, converting competing brand priorities into a single shared journey model and phased migration roadmap.
- Served as UX Lead on Project OPUS, a SaaS CMS platform built on CrownPeak, Tailwind CSS, and Flowbite, migrating 20+ brand websites onto a unified, scalable platform and eliminating fragmented systems across the portfolio.
- Extended the OPUS information architecture and JTBD framework to the Neighborly native app, shipping it as the app's primary navigation structure (Repair / Maintain / Enhance) and core booking flow.
- Built and maintained a comprehensive Figma design system and component library shared across all brands, balancing consistency with per-brand flexibility.
- Defined and led UX research methodology, from planning and scripting to synthesis, presenting findings directly to executive leadership.
- Managed a blended team of 10, 4 in-house UX designers, 2 UX researchers, 1 ADA specialist, and 3 offshore designers from a contracted third-party agency, and oversaw design sprint cadence across the platform lifecycle.

Tools: Figma, Axure, Adobe CC, CrownPeak, Azure DevOps, SharePoint

Interactive Creative Director | HCK2 Partners 2011 – 2021

Joined as a Senior Interactive Designer and was promoted to Interactive Creative Director within 3 years. Spent a decade leading UX and creative strategy for a growing portfolio of B2B and ecommerce clients at a full-service agency.

- Directly managed and mentored a team of 3–5 designers, providing consistent feedback, creative direction, and career development guidance.
- Partnered with executive and new business teams to scope and estimate interactive projects, contributing to agency growth and client retention.
- Oversaw end-to-end creative and UX strategy across client engagements, from research and discovery through delivery, ensuring quality, budget alignment, and on-time execution.
- Presented UX documents and creative concepts to internal and external stakeholders, including C-suite and brand leadership.
- Collaborated with the internal development department to bridge design and engineering, ensuring implementation fidelity and project lifecycle quality.
- Delivered award-winning work for clients including Southwest Airlines, Dell, Sabre, NTT Data, and Marazzi.

Tools: Figma, Sketch, Axure, Adobe CC, HTML/CSS, Drupal, WordPress

Sr. Interactive Designer | RD2, Inc. 2008 – 2011

Designed custom, experimental interactive community experiences for enterprise clients including Dell and Southwest Airlines at a boutique digital agency.

- Scoped work, created budgets and timelines, and pitched creative concepts to external stakeholders.
- Worked closely with UX, copywriters, project managers, and brand presidents to execute progressive, engagement-driven online community experiences.

Tools: Adobe CC, After Effects, HTML/CSS, Drupal, WordPress

Sr. Art Director | Fusion Advertising 2006 – 2008

Developed local and national campaigns, brand identities, and interactive work at a boutique agency. Collaborated with the Creative Director and agency president on pitches and directed junior designers across print and digital projects.

Tools: Adobe CC, Dreamweaver, HTML/CSS

Early Career (1998 – 2006)

David Sutherland, Inc. — Sr. Art Director / Interactive Designer | 2002–2006

Express Digital (PhotoReflect) — Interactive Designer | 2000–2002

Texas Medical Liability Trust — Graphic Designer | 1998–2000

UX Artifacts: Roadmapping • Strategic Planning • Research & Design Strategy • User Journeys & Flows • Personas & Use Cases • Wireframing • High & Lo-Fi Prototyping • Test Planning & Scripting • Results Synthesis • Workshop Facilitation • Innovation Frameworks
